

## **PLUS**

---

Changing the groups for some freshness of faces

New groups!

New and diverse people to discuss topics with

Start and stop on time

Some like time change others not

Working with a different group of people

Liked the new time of the meeting, way better than the morning-less rushed

It was nice to work with people I normally don't work with!

Nice to change groups and love the new time of the meeting.

Nice to change groups :)

Nice to have new groups.

Short and sweet

Liked the different groups

I didn't forget because it was after rather than before school

## **DELTA**

---

I'm more awake in the morning.

After a long day a meeting can be draining.

I

I'm a morning person

Nothing

Liked the morning time

I liked having them in the mornings, but it's a nice change of pace

Nothing.

I'm brain dead by this time of day

Wish I was there in person
